## COAL DROPS \$4 AS U. S. OPENS PROBE

Operators Report Bituminous Sales Average \$3.31 With Profit 54 Cents

**WASHINGTON**—On the heels of Attorney General Palmer's instructions to all United States District Attorneys to put an end to profiteering in bituminous coal, the Federal Trade Commission made public its findings on bituminous coal costs, based on its latest monthly returns, report is understood to have been in the hands of the Department of Justice when the Attorney General issued his order to District Attorneys to put a curb on alleged coal profiteers.

Admiral Benson, chairman of the United States Shipping Board, complained Friday that he has to pay from \$20 to \$22 a ton for coal for bunker purposes.

The report made public by the Federal Trade Commission states that if the operators reporting for the West Virginia fields are representative for the state, the average reported sales realization of West Virginia operators f. o. b. the mine which is \$3.40 plus transportation, which amounts to about \$2 lays coal f. o. b. cars at railroad terminals serving Hampton Roads at about \$5.40 per ton net. This is coal for which the Shipping Board has had to pay from \$20 to \$22 per ton.

### Coal Prices Drop \$4 in Day

Simultaneously with the making public of the Trade Commission's report, and following Attorney General Palmer's orders, the District Attorneys' office at Baltimore informed the Attorney General's office that there had been a break in the bituminous market at Baltimore. According to this information, bituminous coal at Baltimore dropped to \$8.75 a ton.

Even at that figure there were refusals to buy by those who seemed to think there would be a further drop in price.

The feature of the announcement is the showing as to the comparatively low actual cost of coal at the mines as given by a large number of operators who came forward voluntarily with their figures. It shows that these operators furnished information that they receive as a matter of sales realization f. o. b. the mine \$3.40 for their coal.

**FOR SALE** House and lot on Bellville St. Remodeled till same as new. Five rooms and hall. Good out buildings, well and cistern. Bargain if taken at once. 6tf J. A. ELDER, Phone 239-3

Capt. W. E. Dowell, of Tolu, was in the city Tuesday.

## POPULAR FREDONIA COUPLE MARRY IN PRINCETON

Reuben Ray and Miss Thelma Butler, of Fredonia, were married in this city last Saturday afternoon, Rev. J. F. Claycombe performing the ceremony at his residence on South Jefferson street.

The groom is a son of James B. Ray and is a clever, hustling and prosperous young farmer. The bride is a daughter of Mrs. Zana Butler, and is a pretty, attractive and accomplished young lady. They will reside on Mr. Ray's farm near Fredonia.

The Leader joins their many friends in wishing them long, happy and prosperous life.—Princeton Leader.

### DIES IN NEW YORK

Word has been received in Paducah of the death of Mrs. Mollie Bennett, widow of the late Judge Caswell Bennett, prominent Kentucky jurist of Frankfort. Mrs. Bennett had been living for several years in New York City with her daughter, Miss Virginia Bennett. No particulars concerning her death were stated in messages received.

Mrs. Bennett was born in Eddyville, Ky., the daughter of Judge W. L. Crumbaugh, and spent the early part of her life in this part of the state. She was well known in Paducah. She married Judge Bennett and they went to Frankfort to make their home. Judge Bennett having been elected to the Court of Appeals. Mrs. Bennett was a woman of much charm of personality and brilliant mental attainments. She won many friends throughout Kentucky.

Mrs. Bennett was a cousin of T. H. Callahan, Mrs. George H. Goodman, and Mrs. Jesse Croach of this city. She is survived by her daughter, Virginia, and a sister, Mrs. Joseph Smith of Birmingham, Ky.—Princeton Leader.

### ADMINISTRATOR'S NOTICE

All persons having claims against the estate of M. F. Enoch, deceased, will present same, properly proven, to the undersigned on or before September 26, 1920. Also all persons indebted to said M. F. Enoch either by note or account, will please pay same by not later than September 20, 1920.

R. H. THOMAS,  
Administrator

### NOTICE

All stockholders of the Percheron Horse Co., are requested to attend a meeting on Monday, Aug. 30, at 1:30 P. M. Urgent business to be attended to. J. W. FLYNN, Secretary.

Mrs. Galen Dixon, of Evansville, is visiting her parents, Mr. and Mrs. H. F. Hammack.

## SUGAR TO GO LOWER SAYS THIS REPORT

Dealers in Cities Lose Thousands When Price of Commodity Begins to Fall

**WASHINGTON**, D. C.—Retribution is coming apparently to many big sugar dealers, who a few months ago were fattening their bank accounts from the abnormally high sugar prices. The very prices they created are in large part responsible for their losses.

Within a week, when prices have dropped from 23 24 and 25 cents a pound to 16, 17 and 18, certain dealers have lost tens of thousands and perhaps hundreds of thousands of dollars of their former profits. The end is not yet. Today one of the largest concerns in the country to meet competitors planned to put sugar on the market at 15 cents.

It would not be surprising if prices dropped to still lower levels before they stabilize. Prospects are gloomy for those with large supplies, who are wondering how they will get thru the next week or two without impairment of credit and actual collapse. Efforts to keep the situation quiet in order not to disturb bank credits have failed. According to the present indications, the concern that can unload before there is an actual stampede fares the best chance of escaping unharmed.

**Miscalculated on Prohibition**

A miscalculation about the effects of prohibition really started the break. A contributory cause is the haste of sugar dealers all over the world to rush their supplies here to get the benefit of high prices. Many of these foreign supplies have already landed and are enroute. They come from Brazil, Peru, Argentina, China and even from Africa, none of which countries figured in the sugar market here in the years past.

Big candy and soft drink manufacturers and speculators calculated last summer and fall that Nationwide Prohibition would create a demand for candies and soft drinks never before known in this country, according to inside information just obtained, and gobbled up available sugar supplies. Then for weeks this past spring grocers informed the average individual there was no sugar to be had. Refiners took advantage of the demand to boost prices until they reached as high as 25 and 30 cents a pound.

This summer candy and soft drink manufacturers were awakened to the fact the public had not gone as crazy over candy as anticipated. Accordingly they began to unload.

### NUNN-MILLER.

On Wednesday evening, August 25, at eight o'clock, at the home of Rev. J. B. Trotter, in the presence of a few friends, Miss Bessie Nunn and Mr. Chas. B. Miller were united in marriage.

The bride is the only daughter of Mrs. Fannie Nunn Scott, of this city, and was born and reared in this county. She is a young lady of sterling qualities and loved by all who know her.

The groom is a painter by trade, and has resided in this city only a few months, but has made many friends while here.

## APPOINT ELECTION COMMISSIONERS

The State Board of Election Commissioners met at Frankfort last Saturday and appointed Election Commissioners for the various counties in the state. C. S. Nunn, Democrat, and W. B. Yandell, Republican, were appointed for this county.

Commissioners appointed in other First District counties are:

Caldwell—George F. Catlett, Democrat, and M. B. Moore, Republican.

Ballard—A. P. Frromola, Democrat; Charles Wickliffe, Republican.

Calloway—Ben Grogan, Democrat; E. D. Hurt, Republican.

Carlisle—Jesse Moore, Democrat; W. L. Elliston, Republican.

Fulton—Charles Schlenker, Democrat; J. T. Stevens, Republican.

Graves—C. S. Wilson, Democrat; Harry Weaver, Republican.

Hickman—M. E. Sladon, Democrat; W. E. Jones, Republican.

Livingston—G. L. Crawford, Democrat; J. M. Montgomery Republican.

Lyon—Levi Oliver, Democrat; W. S. Craig, Republican.

Marshall—A. A. Thomas, Democrat; H. A. Riley, Republican.

McCracken—A. F. Steele, Democrat; S. J. Snook, Republican.

Trigg—H. M. Prather, Democrat; W. C. Ahart, Republican.

Roy Campbell and Miss Pogue, of

near Frances were married last week.

move to East Alton, Ill.

## EX-KENTUCKY NEWSPAPER MAN TO BE CITY MANAGER

WASHINGTON—Louis Brownlow, former Kentucky newspaper man, who has been one of the commissioners of the District of Columbia municipal government for five years, sent his resignation to President Wilson. He will become city manager of Petersburg, Va., where he will receive a salary of \$10,000, or double what he receives here.

Mr. Brownlow, who is 40 years old entered newspaper work in Nashville, going from there to Louisville. He first came to Washington in 1904 as a correspondent, but a year later he became Irvin Cobb's successor as editor of the Paducah News-Democrat. He returned from Kentucky to Washington in 1906.

His first appointment as a district commissioner was made by President Wilson in 1915.

## KENTUCKY TO PAY RATE RAISE

State Rail Board Helpless to Prevent Intrastate Increase

**FRANKFORT** Ky.—The State Railroad Commission ruled that it had no power to prevent the 25 per cent increase granted railroads by the Interstate Commerce Commission from applying to intrastate rates.

The new rates, which affect passenger, freight and pulman service went into effect August 26.

The American Railway Express Company will not be able to put its increase of 12½ per cent into effect at that time as the law placing express, telephone, steamboat and gas companies under jurisdiction of the State Railroad Commission provides that no change shall be made in rates except after not less than thirty days notice to the commission. A different law governs rail roads.

The State railroad Commission met here to consider the increased intrastate rates proposed by the railroad and express companies and it was the unanimous opinion of the members that the commission had no authority in the matter.

## DEANWOOD.

Uncle John Corley, who spent two weeks with his son, Milton, of Carterville, Ill., returned home Sunday.

Mrs. Alice Merriman, of Nashville, Tenn., spent a few days here, with relatives last week.

Miss Ruby Gabagen, of Weston, spent the week end with Ed Dean's family.

George Stewart and family, who spent last week with Wesley Eaton's family, have returned to their home in Birmingham, Ala.

Clifton Overly is visiting his uncle, Baxter and Burnett Pritchett.

Miss Bessie Crider, of Oklahoma, is visiting her aunt, Mrs. H. N. Lamb.

Mrs. W. T. Oakley, and son, Carlos, spent a few days with J. N. Dean's folks last week.

Miss Bertie Travis visited her uncle, H. B. Travis, and her grandmother, Aunt Lizzie Travis, Tuesday.

Rev. "Gam," the Chinese Missionary, lectured to a good crowd Tuesday, at Sugar Grove. Seventy dollars were pledged to help build his missions in California and China.

## SEVEN SPRINGS.

Phil Travis and wife and daughter Miss Ruby, of Edmonton vicinity, were visiting M. L. Patton and family Sunday night.

Rev. W. W. Crouch, of Russellville College preached at Seven Springs last week.

Born, to Mr. and Mrs. Bedford Blake, a fine boy on August 15th.

Rev. J. C. Kinsolving and wife, of Emmaus, were visiting here last Monday.

L. K. McClure has a very sore hand.

Mrs. Martha McKinney attended the Association at Emmaus, and visited her sister, Mrs. Harriet Wrang,

Livingston—G. L. Crawford, Democrat; J. M. Montgomery Republican.

Lyon—Levi Oliver, Democrat; W. S. Craig, Republican.

Marshall—A. A. Thomas, Democrat; H. A. Riley, Republican.

McCracken—A. F. Steele, Democrat; S. J. Snook, Republican.

Trigg—H. M. Prather, Democrat; W. C. Ahart, Republican.

Roy Campbell and Miss Pogue, of

near Frances were married last week.

move to East Alton, Ill.

## SUFFRAGE ACTION CERTIFIED BY TENN.

Immediate Promulgation Expected

—High Court Writ Sets Injunction Aside

**NASHVILLE**, Tenn.—Certification of Tennessee's ratification of the federal suffrage amendment was mailed to Washington Tuesday night. On its receipt there by Secretary of State Colby suffrage advocates expect issuance of the formal proclamation making the amendment a part of the organic law of the land and placing 20,000,000 American women on equality with men at the ballot box.

Gov. Roberts placed the certification in the mail after receiving from the State Atty. Gen. Thompson an opinion that Chief Justice Lansden of the Tennessee supreme court in effect set aside an order temporarily restraining the governor from taking such an action. The injunction was obtained last Saturday by citizens of Nashville opposed to suffrage on the plea that action on the amendment by the present legislature was in violation of the state constitution and illegal in other particulars.

Issuance of the writ and the governor's certificate may transfer to Washington the battle over legality of ratification, anti-suffrage leaders declaring the American constitutional league was prepared to apply to the district of Columbia supreme court for an order restraining Secretary Colby from issuing the proclamation.

So far as court action in Tennessee is concerned the only thing in prospect for the suffrage opponents is to request the supreme court to rescind the individual action of Justice Lansden. The court will meet in Knoxville Sept. 20. Just what effect a refusal of the court to uphold Justice Lansden's course would have on the general situation no one was prepared to say.

## MINERS AT SPOTTSVILLE ON SYMPATHY STRIKE

**HENDERSON**, Ky.—Thirty-five miners at the Jennings mine and twenty-five at the Dixie mine, both near Spottsville struck in sympathy with the Illinois and Indiana strikers. They made no demands for advanced wages.

Dave Duncan, officials of the United Mine workers came here to attempt to induce the men to return to work.

Three hundred miners on strike for three days returned to work at the two Southland mines.

## OUR SCHOOLS.

The beginning of each school term is marked with a certain degree of surface interest which is soon lost in a mental delusion that the house, pupil or teacher is not the proper one for certain pupils to go to or associate with. The attendance begins in a short time to show decline for various reasons that have no foundation.

In studying the situation, we find them that early cease to come, are always blaming the whole school faculty for lack of ability. Because certain pupils did not show degree of refinement in only a few days of onlooking. (I say onlooking because those kind seldom study.)

To reach those children, get them interested produces one of the most interesting problems.

Very few have environments that cause them to yearn for better homes, better schools, and a greater life. To show them their needs, produce an interest would be worth more than harsh laws.

Where no one takes an interest sufficient to cause a change, it seems that law should force and force quick.

Pupils that never go to school form a nucleus of excuse for half or non-interested parents where the pupils never go or go as the moon.

That stumbling block must be changed into a stepping stone. To do that seems to me environments must be changed, school spirit and association with them formed. As for the parents, changing them is likely to never happen, but they may be made to see where their silence means the child's success.

Letting illiteracy go uncurbed the almshouses, jails and other prisons are filled, while schools and churches are empty.

If you enjoy the pleasure of what education you have, teach yourself some more school spirit and come over to Macedonia and help the lone school teacher.—D. H. POSTLETHWEIGHT.

Mr. C. B. Collins, of the Piney section, has sold his property and will

## WOMEN OF KENTUCKY GET VOTE PROMPTLY

FRANKFORT—Responding to a query by Miss Alice Paul, of the

# The KITCHEN CABINET

The mountain of success is steep and rocky way.  
Who gains the summit climbs a weary way.  
And, though brave feet grow stronger with rebuf,  
The rocky path a coward's steps may stay.

## A HOT WEATHER LUNCHEON.

Even in warm weather a hot soup is enjoyed, especially those made of fresh green vegetables such as peas, spinach, vegetables, oysters or celery. Cucumber soup may not be so well known but it is a most appetizing one.

**Cream of Cucumber Soup.**—Have ready one cupful of stewed cucumber, rubbed through a sieve. Take the liquor in which the cucumber was cooked, reduce it to half a cupful by boiling, and set aside. Put into a saucepan one tablespoonful of butter, season with salt, pepper and, when the butter is hissing hot, stir into it two tablespoonyfuls of flour. Stir until the mixture leaves the sides of the pan. Add three cupfuls of cold milk and stir constantly until it boils. When the mixture is as thick as a thin cream sauce add the cucumber and the half-cupful of liquor. Mix thoroughly, boil up once and serve.

**Eggs a la Bourgeoise.**—Cut slices of bread half an inch thick and trim off the crust; lay on a buttered platter and sprinkle with grated cheese. Beat eggs enough to cover the bread; season with salt and pepper and grated nutmeg; pour over the bread and bake in a moderate oven until the eggs are set.

**Creamed Fish With Potato.**—Prepare creamed salmon as usual and put a layer of the fish in a baking dish, cover with a layer of cold, mashed potato, then add another layer of fish until the dish is full and the potato on top. Dot with bits of butter, sprinkle with buttered crumbs and bake brown in a hot oven.

**Macaroni With Codfish.**—Take one cupful of cold-boiled macaroni, add one cupful of cold-boiled codfish flaked fine. Put into a buttered baking dish, sprinkle with salt, pepper, grated cheese and sufficient milk to moisten. Bake until brown.

**Potato Border.**—Make a rim of mashed seasoned potato around a well-buttered platter. Fill the center with creamed fish, cover with buttered crumbs and bake in a hot oven until the crumbs are brown.

## Cheerfulness and Content are great beautifiers, and are famous preservers of good looks!—Barnaby Rudge."

## WHAT TO HAVE FOR LUNCHEON.

For a warm weather luncheon, and this means one easy to digest and not too heavy, try a fish dish for the main course, a salad and a light dessert with an iced fruit or a hot drink as one prefers.

**Cured Salmon.**—Chop a small onion very fine and fry brown in one tablespoonful of butter. Mix one teaspoonful of curry powder with one tablespoonful of flour and a pinch of salt. Stir into the butter. Add slowly one cupful of hot water, stirring briskly. When the sauce is thick add one cupful of flaked salmon and cook until well heated.

**Currant Pie.**—Bake a pastry shell and fill with the following: Mash one cupful of currants with one cupful of sugar, or use the same quantity of fresh currant jam, prepared by using crushed currants and sugar in equal measures, or slightly less sugar. Add two beaten egg yolks, two tablespoonsfuls of flour, a quarter of a cupful of water; mix well and cook until smooth and thick. Cool, fill the shell and cover with a meringue made from the beaten whites with two tablespoonsfuls of sugar. Brown in the oven and serve at once.

**Peas and Carrots.**—Clean and dice enough carrots to make two and one-half cupfuls. Steam until tender; put through a sieve; add butter and flour, one tablespoonful each; one beaten egg, one-half teaspoonful of salt and a few dashes of pepper and a grating of nutmeg. Press into a ring mold, cover with greased paper and steam twenty minutes. Fill the center with cooked seasoned peas and garnish with parsley.

**Tomato Hors d'Oeuvres.**—Arrange slices of tomato cut one-half inch thick on thin rounds of broiled corn-meal mush. Cover the tomato with a paste made of cottage cheese mixed with a few chopped nut meats and add a seasoning of chopped chives and radishes. Garnish with radish roses or with olives. Serve at dinner.

### Worth Cultivating.

Is it not a thing divine to have a smile which, none know how, has the power to lighten the weight of that enormous chain which all the living in common drag behind them?—Victor Hugo.

**Washington's Peculiar Hobby.**—George Washington's principal diversion was training baby foxes. He was fond of fox hunting. He took the animals home, and trained them in all kinds of tricks, which he often exhibited to friends.

### Start of the Umbrella.

As a shade from the sun the umbrella is of great antiquity. Sir Gardner Wilkinson has engraved a delineation of an Ethiopian princess traveling in her chariot through upper Egypt, where the car is furnished with an umbrella.

### Change of Time.

On her wedding day every woman thinks that life will be one grand sweep song, but later, when she has to sing a pair of twins—well, it's a difference.

# THE VALLEY of the GIANTS

Author of "Cappy Ricks"

By PETER B. KYNE

Copyright by Peter B. Kyne

### "JULES RONDEAU!"

Synopsis.—Pioneer in the California timber country, John Cardigan, at forty-seven, is the leading citizen of Sequoia, owner of mills, ships, and many acres of timber, a widower after three years of married life, and father of two-day-old Bryce Cardigan. At fourteen Bryce makes the acquaintance of Shirley Summer, a visitor at Sequoia, and his love begins. Together they visit the Valley of the Giants, sacred to John Cardigan and his son as the burial place of Bryce's mother, and part with mutual regret. While Bryce is at college John Cardigan meets with heavy business losses and for the first time views the future with uncertainty. After a year from college and a trip abroad, Bryce Cardigan comes home. On the train he meets Shirley Summer, on her way to Sequoia to visit her uncle, Colonel Pennington. Bryce learns that his father's eyesight has failed and that Colonel Pennington is seeking to take advantage of the old man's business misfortunes. John Cardigan is despairing, but Bryce is full of fight.

### CHAPTER V.—Continued.

—5—

John Cardigan shook his head. "I'm mortgaged to the last penny," he confessed, "and Pennington has been buying Cardigan Redwood Lumber company first-mortgage bonds until he is in control of the issue. He'll buy in the San Heidi timber at the foreclosure sale, and in order to get it back and save something for you out of the wreckage, I'll have to make an unprofitable trade with him. I'll have to give him my timber adjoining his north of Sequoia, together with my Valley of the Giants, in return for the San Heidi timber, to which he'll have a sheriff's deed. But the mill, all my old employees, with their numerous dependents—gone, with you left land-poor and without a dollar to pay your taxes. Smashed—like that!" And he drove his fist into the palm of his hand.

"Perhaps—but not without a fight," Bryce answered, although he knew their plight was well-nigh hopeless. "I'll give that man Pennington a run for his money, or I'll know the reason."

The telephone on the table beside him tinkled, and he took down the receiver and said "Hello!"

"Mercy!" came the sweet voice of Shirley Summer over the wire. "You feel as savage as all that, Mr. Cardigan."

For the second time in his life the thrill that was akin to pain came to Bryce Cardigan. He laughed. "If I had known you were calling, Miss Summer," he said, "I shouldn't have growled so."

"Well, you're forgiven—for several reasons, but principally for sending me that delicious blackberry pie. Thank you so much."

"Glad you liked it, Miss Summer. I dare to hope that I may have the privilege of seeing you soon again."

"Of course. One good pie deserves another. Some evening next week, when that dear old daddy of yours can spare his boy, you might be interested to see our burl-redwood-paneled dining room Uncle Seth is so proud of. Would Thursday night be convenient?"

"Perfectly. Thank you a thousand times."

She bade him good-night. As he turned from the telephone, his father

and now the task of continuing it is mine! All those men who earn a living in Cardigan's mill and on Cardigan's dock—those sailors who sail the ships that carry Cardigan's lumber into the distant ports of men—are dependent upon me; and my father used to tell me not to fall them. Must my father have wrought all this in vain? And must I stand by and see all this

—to satisfy the overwhelming ambition of a stranger?" His big hands clenched. "No!" he growled savagely. "Give me your last five annual statements, Mr. Sinclair, please."

The old servitor brought forth the documents in question. Bryce stuffed them into his pocket and left the office. Three-quarters of an hour later he entered the little amphitheater in the Valley of the Giants and paused with an expression of dismay. One of the giants had fallen and lay stretched across the little clearing. In its descent it had demolished the little white stone over his mother's grave and had driven the fragments of the stone deep into the earth.

The fact that the tree was down, however, was secondary to the fact that neither wind nor lightning had brought it low, but rather the impious hand of man; for the great jagged stump showed all too plainly the marks of cross-cut saw and axe; a pile of chips four feet deep littered the ground.

For fully a minute Bryce stood dumbly gazing upon the sacrifice before his rage and horror found vent in words. "An enemy has done this thing," he cried aloud to the wood-goblins. "And over her grave!"

It was a burl tree. At the point where Bryce paused a malignant growth had developed on the trunk of the tree, for all the world like a tremendous wart. This was the burl, so prized for table-tops and paneling because of the fact that the twisted, wavy, helter-skelter grain lends to the wood an extraordinary beauty when polished. Bryce noted that the work of removing this excrescence had been accomplished very neatly. With a cross-cut saw the growth, perhaps ten feet in diameter, had been neatly sliced off much as a housewife cuts slice after slice from a loaf of bread. He guessed that these slices, practically circular in shape, had been rolled out of the woods to some conveyance waiting to receive them.

What Bryce could not understand, however, was the stupid brutality of the raiders in felling the tree merely for that section of burl. By permitting the tree to stand and merely building a staging up to the burl, the latter could have been removed without vital injury to the tree—whereas by destroying the tree the wretches had evidenced all too clearly to Bryce a wanton desire to add insult to injury.

"Poor old Dad!" he murmured. "I'm glad now he has been unable to get up here and see this. It would have broken his heart. I'll have this tree made into fence posts and the stump dynamited and removed this summer. After he is operated on and gets back his sight, he will come up here—and he must never know. Perhaps he will have forgotten how many trees stood in this circle."

He paused. Peeping out from under a chip among the litter at his feet was the moldy corner of a white envelope. In an instant Bryce had it in his hand. The envelope was dirty and weather-beaten, but to a certain extent the redwood chips under which it had lain hidden had served to protect it, and the writing on the face was still legible. The envelope was empty and addressed to Jules Rondeau, care of the Laguna Grande Lumber company, Sequoia, California.

Bryce read and reread that address. "Rondeau!" he muttered. "Jules Rondeau! I've heard that name before—ah, yes! Dad spoke of him last night. He's Pennington's woods-boss."

An enemy had done this thing—and in all the world John Cardigan had but one enemy—Colonel Seth Pennington. Had Pennington sent his woods-boss to do this dirty work out of sheer spite? Hardly. The section of burl was gone, and this argued that the question of spite had been purely a matter of secondary consideration.

Evidently, Bryce reasoned, someone had desired that burl redwood greatly, and that someone had not been Jules Rondeau, since a woods-boss would not be likely to spend five minutes of his leisure time in consideration of the beauties of a burl table-top or panel. Hence, if Rondeau had superintended the task of felling the tree, it must have been at the behest of a superior; and since woods-boss acknowledges no superior save the creator of the payroll, the recipient of that stolen burl must have been Colonel Pennington.

Shirley, left alone at the breakfast-table, picked idly at the preserved figs the owlish butter set before her. Vaguely she wondered at her uncle's apparent hostility to the Cardigans; she was as vaguely troubled in the knowledge that until she should succeed in eradicating this hostility, it must inevitably act as a bar to the further progress of her friendship with Bryce Cardigan. And she told herself she did not want to lose that friendship. She wasn't the least bit in love with him albeit she realized he was rather lovable. And lastly he was a good, devoted son and was susceptible of development into a congenial and wholly acceptable comrade to a young lady absolutely lacking in other means of amusement.

She finished her breakfast in thoughtful silence; then she went to the telephone and called up Bryce. He recognized her voice instantly and called her name before she had opportunity to announce her identity.

"Thank you so much for the beautiful roses, Mr. Cardigan," she began.

"I'm glad you liked them. Nobody picks flowers out of our garden, you know. I used to, but I'll be too busy hereafter to bother with the garden. By the way, Miss Summer, does your uncle own a car?"

"I believe he does—a little old rat-trap which he drives himself."

"Then I'll send George over with the Napier this afternoon. You might care to take a spin out into the surrounding country. By the way, Miss Summer, you are to consider George and that car as your personal property. I fear you're going to find Sequoia a dull place; so whenever you wish to go for a ride, just call me up, and I'll have George report to you."

"But think of all the expensive gasoline and tires!"

"Oh, but you mustn't look at things from that angle after you cross the Rocky mountains on your way west. What are you going to do this afternoon?"

"I'll go, after all," he told himself. "I'll go and I'll see what I shall see."

### CHAPTER VI

When Shirley Summer descended to the breakfast room on the morning following her arrival in Sequoia, the first glance at her uncle's stately countenance informed her that during the night something had occurred to irritate Colonel Seth Pennington and startle him out of his customary bland composure.

"Bryce," he began. "Did I hear you calling young Cardigan on the tele-

phone after dinner last night or did my ears deceive me?"

"Your ears are all right, Uncle Seth. I called Mr. Cardigan up to thank him for the pie he sent over, and incidentally to invite him over here on Thursday night."

"I thought I heard you asking some-

body to dinner, and as you don't know

a soul in Sequoia except young Cardigan, naturally I opined that he was to be the object of our hospitality."

"I dare say it's quite all right to have invited him, isn't it, Uncle Seth?"

"Oh, that reminds me, Mr. Cardigan. You can't come Thursday evening, after all." And she explained the reason. "Suppose you come Wednesday night instead."

"We'll call that a bet. Thank you."

"My woods-boss, Jules Rondeau, makes them keep the peace," Pennington replied with a small smile. "If there's any fighting to be done, he does it."

"You mean among his own crew, of course," Bryce suggested.

"No, he's in charge of the mad-train,

and whether a fight starts among your men or ours, he takes a hand. He's had them all behaving mildly for quite a while, because he can whip any man in the country, and everybody realizes it. I don't know what I'd do without Rondeau. He certainly makes those boughs of mine step lively."

"Oh-h-h! Do you employ boughs, Colonel?"

"Certainly. They cost less; they are far less independent than most men and more readily handled. And you don't have to pamper them—particularly in the matter of food. Why, Mr. Cardigan, with all due respect to your father, the way he feeds his men is simply ridiculous! Cake and pie and doughnuts at the same meal!"

"Well, Dad started in to feed his men the same food he fed himself, and I suppose the habits one forms in youth are not readily changed in old age, Colonel."

"But that makes it hard for other manufacturers," the Colonie protested.

"I feed my men good plain food and plenty of it—quite better food than they were used to before they came to this country; but I cannot seem to satisfy them. Your respected parent is the basis for comparison in this country, Cardigan, and I find it devilish inconvenient." He laughed indulgently and passed his cigarette-case to Bryce.

"Uncle Seth always grows restless when some other man is the leader," Shirley volunteered with a mischievous glance at Pennington. "Don't you, Nunk-y-dunk?"

"To BE CONTINUED.

**"You know why, of course—those burl panels in your dining room."**

**WEAR RATTLES ON ANKLES**

Girls of Mozambique Don Them to Aid in Keeping Time in Their Peculiar Dances.

Consider a country as big as the Atlantic states from Florida to New York, with the capital near the southern boundary, having a population of more than 300,000 inhabitants, of whom only about 1 per cent are white, and you have Mozambique, a Portuguese colony in Africa to the south of what was German East Africa, says a bulletin of the National Geographic Society.

Mozambique is one of the odder of all European possessions, and one of the richest in agricultural possibilities, but is one of the least known countries in the world. There are five towns and a small, up-to-date capital city, with a number of military posts and outposts. There are no deserts, swamps or mountainous wastes. The colony is altogether inhabited by about twenty tribes.

Among the curious customs of the land is the wearing of rattles by the girls on their ankles at dances. Hollow spheres are made of palm leaf or grass and are partially filled with large stones or pebbles. The noise of these ankle rattles is supposed to assist in keeping time in the dance. Similar ornaments are frequently worn by the boys.

The popular music used at a batuque or ball is that of the marimba, or huge xylophone, which gives out a blood-freezing death chant during the "expression" dances of both men and women.

**Fetishes of Riksha Pullers.**

Although the diffusion of education among the Zulus and other natives of Natal is removing many fetish customs from their social life, some practices are held tenaciously by the children of bigoted natives. At one curio establishment in Durban, Natal, it is said that on rare occasions natives ask for Jokelot "muthi," or magic medicine made from the flesh of native children. This "muthi" (which, it is believed, was once used by the warriors of Tshaka and Dingane), is supposed to convey the virtues of youth and strength. It is occasionally asked for in Natal by rickshaw boys. The rickshaw pullers have a firm faith in the fat of lions, tigers, crocodiles and hippos. These are stored in jars for sale to Kaffir clients. Snake muthi is also a favorite decoction for those desiring cunning. "A good deal of the fat for these medicines is imported by us," said a well-known curio dealer, "from Central Africa; and we are supplied by firms in Livingston."

**Register Wear on Material.**

Machines in the road testing laboratory of the engineering experiment station, Manhattan, register as much wear on road material in a few hours as would be registered by actual use in from 50 to 100 years.

## THE CRITTENDEN PRESS

Marion, Ky., Aug. 27, 1920.

By W. F. and W. P. HOGARD.  
Miss Leahs Wilborn, News Editor.

Entered as second-class matter  
February 9th, 1878, at the post office  
at Marion, Kentucky, under the Act  
of Congress of March 3rd, 1877.

### SUBSCRIPTION RATES

\$2.00 per year cash in advance

### THE COAL GOUGE

Is the bottom about to drop out of coal as it dropped a few days ago out of 25c sugar? Are the consumers to have at last relief from the intolerable artificial prices at which coal has been sold?

The pyramided prices of sugar broke down of their own weight apparently. Are the prices of coal to follow suit? With 75 per cent of domestic coal bins still empty, according to estimates, and with schools, industries and public services imperilled the question of what is to be the autumn price of coal is of great importance and of universal interest.

Figures of the Federal Trade Commission purporting to show the production cost of various grades of coal and the prices realized by mines may serve to bring to the surface some of the facts as to the great coal gouge of 1919-20.

If the published figures are inaccurate as to prices for which coal has been sold by mine operators, dealers avoid bearing blame for the difference between mine prices and market prices, should come forward with figures to show what they have been forced to pay.

If the mine owners and operators have produced coal upon margins between 6 cents per ton and \$1.28 and if prices have been expanded from 300 to 500 per cent between the mines and the open market, the public would be glad to discover who has received the larger proportions of the profits.

If the Federal Trade Commission's figures should constitute the Open Sesame, or the opening wedge, to the mystery of the great coal graft, millions of consumers would be greatly obliged to the Federal Trade Commission for its efforts.

The figures do prove one thing and that is that the cost of coal production is not sufficient to warrant the market prices for the various grades of coal.

Assuming the accuracy of the Washington reports, fifty-seven Kentucky operators admit that the cost of production has averaged \$2.73 per ton. That being true there is no valid excuse for coal selling at retail at anything like the prices which have been demanded.

That the public has been victimized by a ruthless gouge is plain. Whether producers or dealers have done the larger part of the gouging is at present the open question.—Courier Journal.

### THIS IS TODAY.

It is to laugh. The printer goes into the cigar store, lays down 15c for a 5c cigar and smiles; he goes to the boot shop and buys up fifteen simoleons for a pair of five buck kicks and rejoices with the store man over his prosperity; to the druggist he hands a dollar for a bottle of physic that he formerly bought for 35c and makes good by adding 50c to the outlay as payment for 25c worth of chocolates to make the physic a necessity; he pays the grocer and the butcher two prices and registers probation; he gives the banker 8 per cent for 4 per cent money and recognizes that in unnatural times one must expect unnatural charges; he pays the garage man and the picture show man, the drayman, and the railroad their increased rates without a kick, but when any of these intelligent and progressive business men desire a few letter-heads they are shocked at the continual upward trend in the prices of printing. We might offer these gentlemen a number of valid reasons for higher printing costs in addition to the ones that they already know to be legitimate, but do not think it necessary to go into our business details to them any more than we expect them to do this for us. However we will say to them that the day when the country printer owed every one in the community and was dependent upon their charity for his support—the day when he walked in fear of his banker and approached his grocer in confusion—is with all offices of any consequence a thing of the past.

To be a successful newspaper man requires nearly as much talent as it takes to successfully manage a soda fountain and should be worthy of as much remuneration as is expected by the proprietor of a pool parlor. In addition to this a successful newspaper man must have sufficient literary ability to correct the copy of men who wish commercial printing so as to make it intelligent in its construction. He must work more hours than any other man in business in the village and he must pay his employees higher wages than any other commercial enterprise in the place and these are but few of the reasons why it costs more to have printing done in these days of advanced costs of everything than it did when shoes were selling for \$3.50, wheat for 60c

and "Horseshoe" at 45c per pound. The fact that we dare write and publish these truths is proof positive that in some offices at least fear and trembling have been superseded by that knowledge of actual value which makes for commercial and intellectual independence.

It is to laugh.—Clay County Sun.

### Agricultural Column

By G. M. GUMBERT

Our Crittenden County Farm Bureau will meet Saturday, August 28 in the High School auditorium at 1:30. Mr. J. I. Clement, President of our organization, urges all progressive farmers in the county to meet with us to become acquainted with the aims and purposes of our work. We believe that when you once understand Farm Bureau work that you will become member.

A meeting of the directors will be held after the regular meeting to consider plans and policies for the fall and winter. Receipts for paid-up members, and applications blanks for new members are now available. All members are urged to be present as this is to be a most important meeting.

More than 300 tons of lime has been delivered at Marion within the past two months, and some orders yet undelivered. If you wish to know as to the advisability of using lime, ask one of the following progressive farmers:

George Johnson, J. F. Hill, Dr. F. W. Nunn, Alie Hughes, Mr. Beard, O. G. Threlkeld, Dr. T. A. Fraser, or J. M. Fowler.

Acid phosphate and lime make one of the most productive and profitable combination that can be used.

Sometime ago I made an offer of a limestone crusher at a very reasonable rental, provided someone would supply the power. This crusher will begin work on the O. G. Threlkeld in Repton valley, where there is creek bed with a loose surface that will furnish 100 tons of 85 per cent lime. Since the increase in freight rate I believe we can very profitably crush our own lime. Other features to this proposition are, distribution of labor, saving in hauling, availability of lime when needed most and a greater propaganda for its use. I would like to see a few crushers owned by the farmers on a co-operative plan. This would be a most profitable investment, as time will prove, and I believe there will be a number of crushers owned in the county within the next year. I would like to keep this crusher busy in this county until Christmas and I want all interested Farm Bureau members to know that they will be served first.

Messrs O. G. and O. S. Threlkeld of Repton are operating the largest dairy farm in our county. Last fall they erected a new dairy barn with stanchions and stall room for 60 head. At present they have 50 head on hand and milk about forty cows.

They ship 50-60 gallons of cream each week and feed all the skim milk to hogs. A milking machine which has proven very satisfactory saves time and worry twice each day.

The question of suitable hay and pasture for a large herd is a very serious and most important one. When Mr. Threlkeld solves this problem his success will be assured. Ernest is one of my agricultural students and has for his project this year 3 acres of alfalfa which he hope to increase to 10 acres next spring.

They have corn to fill two forty-ton silos and will supplement this roughage with cotton seed meal. Mr. Threlkeld used his tractor to great advantage this spring and says that he would not be without one.

Last winter he decided to build up his herd by raising his own calves instead of buying nondescript cows. I accompanied him to Paducah where we bought Ollie's Liberty Bond, three-year-old pure bred jersey bull. The great grand sire of this bull was sold to J. B. Haggan's estate at Lexington for \$15,000 and the same estate paid \$3,000 for his great grand dam as an old cow. Ollie's Liberty Bond weighs about 1100 pounds, has a big roomy barrel, good scale, a splendid dairy conformation and is undoubtedly the best jersey bull in the county. When we bought the bull we also bought a purebred jersey heifer which has since dropped a beautiful bull calf, subject to register.

Crittenden county is best adapted to dairy farming and the sooner we realize this the more wealth will you have.

I have planned a motor trip thru the Blue Grass and return via State Fair for the boys taking the agricultural course in High School. We will take with us all needed provisions and camp out. On our inspection trip we shall visit Col. E. H. Taylor's Hereford farm, Elmendorf, McKee Bros. 1000 acre Duroc Jersey farm and a number of other large establishments. This trip will be invaluable to the boys and will serve to give them a greater vision of agriculture. Any farmer who owns a car and desires to join our party will be welcomed. We plan to leave on September 6, and will be gone about 10 days.

Master Robert Walton, of Winfield, La., who has been spending the summer with Dr. and Mrs. F. W. Nunn, has returned home.

### POLES REJECT ALL PEACE OFFERS

Refuse to Do Anything Proposed  
Except to Demobilize If  
the Reds Demobilize

LONDON, Aug. 26—Poland's reply to the peace terms presented by the Russian Soviet delegation at Minsk amounts to a flat rejection, says the Manchester Guardian's Minsk correspondent in a wireless dispatch filed in that city.

"Out of the fifteen Russian demands only one that is relative to demobilization, is accepted and that on condition that Russia will take a similar course—that is to say, Russia must demobilize at the same time Poland disbands her forces.

"The terms relative to disarmament, the closing of munitions plants and the delivery of munitions to Russia by Poland are indignantly rejected.

"Bolshevik terms relative to a Polish workers militia and control by the Russians of the railway line from Bialystok southward are declared beyond discussion. The boundary line between Poland and Russia as laid down by Earl Curzon, British Secretary of state of foreign affairs, is declared unacceptable as it involves a third portion of Poland.

"Demands for distribution of land to Polish victims of war and the return of the cattle and horses driven away by Polish land owners from White Ruthenia and Lithuania are rejected as interfering with internal affairs of Poland and a violation of Polish sovereignty.

"Other terms are rejected without qualification and Poland demands a line of demarcation between Polish and Russian territory based on strategic considerations and the idea of buffer states."

### LEVIAS

Fred Love has purchased the farm, house and store building here at Levia's from Charles Larue.

Murry Conyer of Morley, Mo., is visiting his sister, Mrs. George near Siloam.

Rudell Price was the guest Saturday night of his Aunt Eva Eaton at Marion.

Jasper Franklin has returned from Jasper with his brothers, J. H. and Si Franklin at Blodgett, Mo.

The roads were worked right here Monday and Tuesday.

Dr. Frank LaRue, wife and daughter, Frances of Dexter, Mo., and grandmother, Mrs. Dean Franklin, Messrs. Charles Donakey of Tulsa, and Joe W. Stallions were dinner guests of Mrs. Lena Franklin and sister, Ethelyne Price last Wednesday.

Mr. Joe W. Stallions came to Levia's Wednesday to be with his nephew, Dr. Frank LaRue.

Dr. J. Luke Haydon, wife and daughter Frances of Dexter, Mo., and grandmother, Mrs. Dean Franklin, Messrs. Charles Donakey of Tulsa, and Joe W. Stallions were dinner guests last Sunday of Mr. and Mrs. Kelly LaRue.

Ray Love, wife and daughter, Virginia Lee of Titusville, Fla., Mrs. Mayme Mahan and son Robert Rhea, of Clay are visiting Fred Love and wife this week.

Mrs. Mattie LaRue and daughter, Fleta Hurley, of Sheridan were the guests of relatives here last Tuesday.

Howard Hurley and wife of Sheridan were visitors in our little town one day last week.

Mrs. L. L. Price visited the past week with her sisters, Mesdames Unice Walker and Sallie Paris and daughter, Nora Threlkeld.

Mesdames Susie McKinney and Nellie Franklin were guests Tuesday of last week of Mrs. McKinney's daughter, Mrs. Mary Stallions near Salem.

Gene Wright, wife and mother motored over from their home at Mountain Grove, Mo., to be the guests for several weeks of relatives and friends here and at Carrsville.

Mr. J. L. Settles and wife and niece, Sallie Sullenger, Elza Gillies and Miss Ruth Schrievies of Jonesboro, Ark., were guests last Sunday of Mr. and Mrs. J. H. Price and son.

Dr. Frank LaRue and wife motored over from Dexter, Mo., to visit here with his grandmother, Mrs. Dean Franklin and son, Lawson.

### FOR SALE

Thoroughbred Shropshire Rams \$25. Red Poland Bulls \$75 to \$150. E. M. F. Studebaker Car, bargain at \$200.00. 11<sup>1/2</sup> W. L. KENNEDY & CO. Lola, Ky.

### RENOVATING THE STRAND

Messrs. C. L. Cassidy and Doyle Vaughn, managers of the Strand Theatre are busy this week furnishing up a little.

They have repainted the front and decorated the stairway until one would hardly know it as the old opera house.

They plan on redecorating the entire plant while at work on it.

### BRUISED REEDS

By GERTRUDE CUSHING.

(©, 1920, by McClure Newspaper Syndicate.)

"And I contend that it is the experiences and exercises of the mind that cause age to appear in the body. It is the knowledge of good and evil and the consequent ever-increasing obligation to discriminate together with the sorrow incident to failure, intentional or otherwise."

"Then you think that if the brain ceased at any given minute to develop, from that minute the body would remain unchanged in line and color and expression?"

"Something like that."

"Can you cite a case in point?"

The question came from a third man, who up to this point had taken no part in the discussion.

The three men, until the day before yesterday, were gathered in a room in a small hotel in western Massachusetts. A snapping wood fire flaming in the grate, a pack of well-thumbed cards and tall glasses containing some steaming brew were helping to dispel the monotony of a desperately stormy evening.

"Yes," replied the first man, "in a very few words. Do you remember the oddly dressed young woman on the station platform when we left the train yesterday? Well, this is her story:

"She was a girl in this town when I was a boy, some 20 years ago. The winter she was eighteen she spent in New York, visiting an aunt. In the spring she came back, engaged to be married. In the fall her lover came up for three or four weeks and the wedding took place at the end of that time. They went to New York to live. We all liked him, and her letters home always sounded as though she was entirely happy. The next summer he received a letter calling him to a mining district in Montana. It was said that it was business which demanded his personal attention. He brought her here to stay with her people until his return, and from that day to this nothing has been heard from or of him. Whether the letter was a fraud, and that was a way he took to desert her or not, of course, I don't know. I have never thought so, however.

"For a while she put up a good fight. Then one day she collapsed utterly and cried continuously for hours. Nobody could do anything for her. At last it seemed as if something in her brain gave way and a complete change took place. She stopped grieving and declared her belief that her husband would return soon to surprise her and she must be ready for him.

"Each day she dresses with the utmost care, and goes to meet the New York train. Her brain life ceased at that minute, and in mind and body she seems to be the age that he left her. You've heard my theory. Now, what's yours?"

"There was silence for a minute, then the third man spoke. He was a tall, stoop-shouldered man, with extremely white hair and eyebrows and a peculiar, sliding gait. A man old for his years, one would have said.

"Twenty years ago the 14th of July," he began, "I opened my eyes in a small room in a sort of improvised hospital ward in a mining town in Montana. They told me that six weeks before I had been struck on the head by a piece of stone from the arm of a Derrick which had sprung loose. I was knocked unconscious and had been practically so ever since. When I looked at myself I was as you see me now. To all appearances an old man at twenty-three.

"I gained health and strength rapidly, and soon began to live again, but everything previous to that moment of my awakening on that 14th of July was a blank—an absolute void; and with memory went all capacity for intense feeling of any kind." He paused drearily, then concluded: "I suppose that woman is my wife."

"The second man erect in his chair, "Suppose she is?" My God, man, is that all you have to say? What are you going to do about it?"

The third man rose slowly, thrusting his long arms upward, his face clenched as though in some dumb, hopeless way he were challenging the infinite. When he answered, his voice seemed attuned to the play of the elements ringing outside.

"She's in a fool's paradise—of hope. Let her stay there. What can I do? I've got a wife and children in Claremont, Wyo. I married the girl who nursed me back to life." With that he shuffled from the room.

"To the devil with your theories!" burst from the second man as he raised his glass steadily to his lips.

The first man said nothing, but long after midnight he sat before the smoldering ashes.

### Greatest Timber States.

The forests of western Oregon and Washington contain the largest reserves of virgin timber left in the United States, and a very large proportion of the lumber used by the country comes from this region, says the American Forestry Magazine (Washington, D. C.). Washington has since 1905 held foremost place among the states in quantity of lumber produced; Oregon now ranks third in production, but first in volume of standing timber, and it will not be long before the increasing annual cut will place her at the head, or next the head, of timber-producing states.

Our pie supper was a great success, the box of candy was given to Miss Marie Franks for being the prettiest girl.

Mrs. W. C. Lynn and son, Onyx have returned from a visit to her daughter, Mrs. Samuel Estes of El Dorado, Ill.

Miss Grace Rogers and her grandfather were in Marion Tuesday.

Several from here attended the show at Marion last week.

Misses Flaura and Georgia Curnell attended the pie supper here Friday night.

Mrs. Alice Hughes was the guest of Mrs. Henry Lynn Sunday.

Mr. and Mrs. Robert Hughes and daughter, Anna Belle were guests of her parents, Mr. and Mrs. Newt Stallyon Sunday.

Smith and Miller, the painters and decorators who came to Marion last spring have completed many very nice jobs of work in various sections of Marion as well as doing all the high grade work on the new buildings that have been erected.

This firm has decided to locate in Marion permanently.

### \*LOCAL HAPPENINGS

Mr. E. S. Traylor has sold his farm near Repton to Mr. Beverly Herrin.

Mr. W. F. Brown, merchant of Mattoon, was in town Wednesday.

Messrs. Geo. P. Roberts, W. R. Cruce, Sam Gugenheim and Jas. H. Orme motored to Evansville Wednesday to hear Gov. Cox speak.

Mr. A. C. Babb went to Evansville Tuesday to be present at the Cox speaking.

Mesdames Wm. Barnett and Katie Goodloe and Miss Esther Barnett and Hope Hudson motored to Evansville Wednesday.

Miss Marie Hughes spent a few days this week with her aunt, Mrs. Albert Elkins, near Crayne.

Mr. Geo. T. Belt, of Sheridan, was in town Wednesday.

Misses Sybil and Clara Belt, of Sheridan, spent Wednesday with Mrs. W. E. Belt.

Judge Aaron Towery, of Piney, was in town Wednesday.

Mr. Clarence Franks, and family, of Louisville, were in town Wednesday, enroute to Tolu, where they will visit his sister, Mrs. Taylor Guess.

Mr. C. E. Clark, of Tolu, was in the city Wednesday.

Mr. T. T. Guess, of Tolu, was in town, Wednesday.

Mrs. Ida Moore, of Cotton Plant, Ark., is the guest of Judge and Mrs. R. L. Moore.

Mr. Foster Moore, of Altheimer, Ark., spent a few days this week with Judge and Mrs. R. L. Moore.

Mrs. R. L. Hardy, of Salem, spent Wednesday with Mrs. O. G. Threlkeld.

Dr. R. L. Hardy was in town Thursday, enroute to Salem, to spend a few days with his family.

Messrs. Geo. H. Manley and L. E. Guess motored to Paducah, Wednesday, to attend the fair.

Mr. Sylvan Stewart Price, of Tulsa, Okla., spent a few days this week with his parents, Rev. and Mrs. Jas. F. Price.

Mrs. Virgil Y. More, of Madisonville, is the guest of her parents, Rev. and Mrs. Jas. F. Price.

Mrs. E. S. Love, of Clay, spent Wednesday with her parents, Rev. and Mrs. E. M. Eaton.

Miss Rebecca Love, of Clay, is visiting her grandparents, Rev. and Mrs. E. M. Eaton.

Mrs. Clarence Gilliland has returned from a visit with friends at Clay.

Mr. and Mrs. M. B. Moore are camping at Hurricane and attending the camp-meeting.

Mrs. H. W. Wolfe and son, Lindsey, who have been visiting Mrs. Alvis Stephens, have returned to Kuttawa.

Mr. and Mrs. W. E. Mick have removed to Frances, and have rented their home on West Gun street at Mr. and Mrs. Albert Shelby.

Miss Evelyn Roberts will leave soon for Versailles, Ky., where she will enter.

Mr. and Mrs. Grant Davidson will move into their new bungalow, just completed, on South Main street at an early date.

Rev. J. S. Rowe will preach at the Christian Church Sunday, August 29.

Rev. W. T. Oakley has returned from Oak Grove, in Webster county, where he just closed a nine day meeting. It was a fine meeting with most gratifying results.

Rev. W. T. Oakley is at Weston, where he is engaged in a series of meetings.

Mr. John Scott, of Rodney, has gone to East Alton, Ill., where he will work in a cartridge plant.

Mr. J. A. Thomas, of Casad, was in town Tuesday.

Mrs. C. E. Weldon and daughter, Edwina, of Memphis, who have been visiting friends here, have gone to Tolu, where they will visit Mrs. Taylor Guess.

A fine baby girl came to the Methodist parsonage Wednesday night. Harry and Mrs. Short are happy.

Mrs. Ollie M. James, who has been the guest of Miss Elizabeth Rochester left Tuesday for Lookout Mountain, Tenn., where she will spend several weeks.

Mr. and Mrs. Charles Daugherty and family returned from an extended visit to Missouri Tuesday. They made the trip in an auto.

## Puts I Will In You Easy to Get Strong

Everyone wants more pep and sureness it this hot weather. Hot weather takes away the appetite and makes one feel listless, lifeless, miserable, even when you have a strong stomach, but for those who have weak stomachs, it is really a dangerous, trying time.

On the safe side this kind of weather and help nature all you can, by taking an entonate tablet about half an hour before you eat and one or two an hour after you eat; it will be of wonderful benefit. Entonate simply takes up the excess acids, poisons and gases, and carries them right out of the body. With the cause of the trouble removed, of course you will feel fit and fine—full of pep all the time. Entonate will cool feverish mouth and stomach and give you a good appetite, even in hot weather.

Get a big box at your druggist's for a trifling cost and let entonate help you for a few days; then you will never be without it. Adv.

## YOUNGSTER MADE WORD GOOD

Though, as it Turned Out, It Was at the Cost of Some Personal Discomfort.

Marshall, who is five, lives in a flat building. He is a real boy and although he has a rear yard and a sand pile in which to play, his mother has more or less trouble keeping him off the streets. A neighbor saw him across the street one morning and the next day called his attention to the fact that he was out of the zone mapped for him. He was one of the busy ones about a vegetable wagon. "Yes," he said, "I had to get some suds." The next morning he asked his mother for the market basket. He immediately disappeared and soon returned, accompanied by the vegetable man. In the basket were three pounds of potatoes, a box of berries and two cantaloupes. Mother had to settle whether she needed the goods or not. At any rate, Marshall made his word good with the neighbor that he had to get "some suds." When questioned by the same neighbor about his shopping expedition he said: "Yes, and mother spanked me, too."

**Rich Find in an Old Dress.**  
When the personal effects of the once-famous dancer, "Rigoletto," who died recently in Paris at the age of eighty, were sold at auction, an old silk dress was knocked down to a second-hand clothes dealer for a mere song. On examining the garment the purchaser found concealed in the lining a bundle of French bank notes to the value of \$1,000.

Business men who cling to the ancient methods are apt to be left at the post.

### Proper Pride Necessary.

Pride, like lardum and other poisonous medicines, is beneficial in small, though injurious in large quantities. No man who is not pleased with himself, even in a personal sense, can please others.—Frederick Saunders.

### MOTHER!

"California Syrup of Figs"  
Child's Best Laxative

Accept "California" Syrup of Figs only—look for the name California on the package, then you are sure your child is having the best and most harmless physic for the little stomach, liver and bowels. Children love its fruity taste. Full directions on each bottle. You must say "California."—Adv.

**POET'S WORD GOOD ENOUGH**  
Student Was Absolutely Satisfied Without the Necessity of Seeing Any Proofs.

A good story is going the rounds of Princeton about Prof. Alfred Noyes, the English poet.

Professor Noyes, it is well known, likes very much to read his works aloud to his friends, and at Princeton, with so many young men under him, he is usually able to gratify this liking to the full.

The other day Professor Noyes said to a junior, who had called about an examination:

"Wait a moment. Don't go yet. I want to show you the proofs of my new book of poems."

But the junior made for the door franticly.

"No, no," he said. "I don't need proofs. Your word is enough for me, professor."

### Heavy Traffic.

They seldom crowd the roads in northern Minnesota, but on our last tour, when we headed into a tamarack swamp and had to take our top off because of the low-hanging trees, we did feel a trifle uncertain about the route.

"Do many cars travel this road?" we said to some children who happened along.

"Oh, yes," came the proud reply: "lots of 'em. One came last year and one this year, an' now you're here, too!"

## Twenty Five Years of Success

proves that the originator of

## Postum Cereal

was building upon a sure foundation when he devised this most famous of all cereal beverages.

Where one used it in place of coffee, in the beginning, tens of thousands drink it today—and prefer it to coffee.

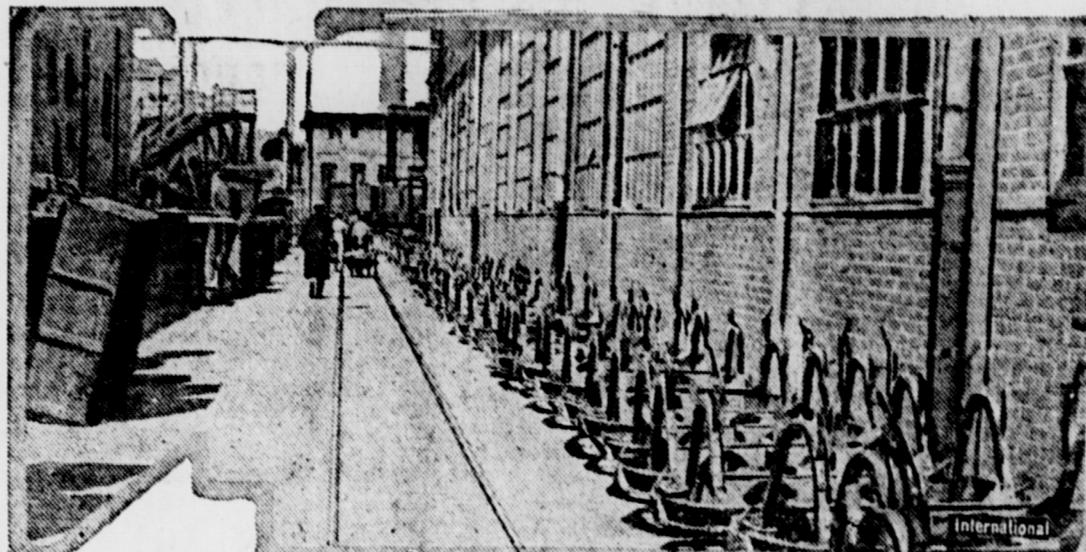

Healthful, delightful to taste and satisfying to every one at table.

Postum is now recognized as coffee's one and only great competitor among those who delight in a coffee-like flavor.

Sold everywhere by Grocers

## Spandau Arsenal Is Now a Salvage Dump

The former arsenal at Spandau, Germany, has been converted into a salvage dump for all war material in the Berlin area, and the metal is being used in the manufacture of peace-time articles. This photograph shows one of the many small metal trucks being made for shipment to France to be used in reconstruction work.

## U. S. HOSPITAL AT CONSTANTINOPLE

Designed Eventually to Be Nucleus of Important Medical Center in Near East.

### BALKAN WOMEN MAY TRAIN

Equipment of the Hospital, Which Will Have 100 Beds, Will Be Supplied by the American Red Cross.

Constantinople.—Americans in Constantinople have established a hospital which is designed eventually to be the nucleus of an important American medical center in the near East. Admiral Bristol, the American high commissioner, is chairman of the hospital's board of directors, which includes G. B. Ravndahl, the American commissioner and president of the American chamber of commerce; Maj. G. Clifton Davis, director of the American Red Cross in the near East; Col. James P. Coombs, director of the American committee for relief in the near East; Dr. Mary Mills Park, president of Constantinople College for Women; Dr. W. W. Peet, representing the various American missionary boards, and Mrs. Huntington, representing Robert college.

Red Cross Gives Beds.

Equipment for the hospital, which will have 100 beds, will be supplied by the American Red Cross. The personnel will be supplied by the American Red Cross and the American committee for relief in the near East, both of which have many doctors and nurses working in Turkey among war refugees of various nationalities.

Dr. A. R. Hoover, who has lived for many years in Turkey, will be director of the hospital and Dr. Elsie Richards Graff, formerly physician to Vassar college and a member of the Wellesley unit of the American committee for relief in the near East, will be his assistant. Mrs. Anna E. Rothrock of Gleniside, Pa., will be superintendent of nurses and her assistants will be Miss A. Estelle Sutton of Detroit, Miss Roberta K. Sharpe of New York and Miss Mary E. Coughlin of Action Center, Mass.

Constantinople College, for women open a school for nurses in connection with the hospital, and within a year will open a woman's medical college to afford medical training for

## IOWA IS MADE A TARGET

Famous Battleship To Be Objective of Big Naval Guns.

Will Go to Sea Unmanned, Under Own Steam and Controlled by Wireless for Unique Experiment.

Washington.—The once famous battleship Iowa, which played no small part in the destruction of Cervera's fleet at Santiago, is being prepared at the Philadelphia navy yard for what naval officers say will be one of the most unique target experiments ever attempted.

Proceeding unmanned, but under her own steam and controlled by radio, probably from seaplanes, the old sea fighter will become the objective of the big guns of the Atlantic fleet super-dreadnaughts in Chesapeake bay late this summer. This will be the first time that American warships have

used a moving craft for a target except in actual war.

Two of the Iowa's coal-burning boilers are being converted to burn oil so the ship may continue under way with no one aboard once its fires have been started burning and its engines placed in motion.

It is expected that the unique practice will give the gun pointers of the Atlantic fleet an opportunity to test their ability under conditions as nearly like those to be expected in battle as can be obtained. Smoke screens will be thrown around the Iowa during the runs and the course will be changed at will through the radio control system, necessitating a change in range on all the firing ships, exactly as would occur in action.

The Iowa has already been stripped of some of its guns and much valuable metal and the practice will be continued until the old vessel, a mass of twisted metal, sinks beneath the waves

American navy. The Young Men's Christian association and Young Women's Christian association have large organizations, in addition to many relief and missionary bodies, which are constantly in need of hospital space for their personnel.

Under the direction of the Constantinople unit of the American committee for relief in the near East, an open-air hospital for tuberculous children has also been established on the shore of the Bosphorus a few miles north of Constantinople. This hospital is under the direction of Dr. Elsie Richards Graff. It has 50 beds, and is designed as a model institution which the Americans hope to get the Turkish, Greek, Armenian and Jewish communities to duplicate.

The new American hospital has leased a large private residence in Istanbul, the Turkish section of Constantinople.

## LIVES SIX DAYS IN GLASS CASE

British Scientist Makes Daring Experiment in Interest of Aviation.

### WAS HERMETICALLY SEALED

Question Involved Was Would It Be Possible to Calculate Quantity of Oxygen Necessary to Airmen at High Altitudes.

London.—Six days sealed up in a glass case is a daring experiment bearing on aviation which has just been carried out by a middle-aged British university professor, Joseph Barcroft, F. R. S., reader in physiology at Cambridge university. The question involved was whether it would be possible to calculate the quantity of oxygen necessary to an airmen at high altitudes.

Mr. Barcroft spent his time in work relating to the experiments, in taking exercise on the bicycle and in sleeping.

He was kept under observation day and night to insure his personal safety, college students and others taking their turn to keep watch.

Nitrogen was continually introduced

into the chamber and the air became gradually rarer in oxygen until it approximated that at an altitude of 16,000 feet, when Mr. Barcroft, who has had experience in mountaineering, experienced considerable inconvenience from sickness and sleeplessness, and also an indisposition to take any food.

At the close of the experiment some blood was taken from Mr. Barcroft's arm. The oxygen the blood contained was separated and it was found to agree with the expectations of the experiment.

Mr. Barcroft confesses to having felt rather shaken up after his release from the glass case but did not look much the worse for the experience.

The experiment is regarded here as thoroughly successful and a scientific experiment of it will be laid before the next meeting of the British association, where Mr. Barcroft will be president of the physiological section.

Took Regular Exercise.

At the foot of the bed was a pedaling apparatus consisting of a frame of a bicycle, from which the front wheel had been removed, and a small back wheel with a frame attached, to enable Mr. Barcroft to get some exercise and

to join the old Texas, which, as the San Marcos, was used as a stationary target years ago.

The battleship Ohio has been turned over to the Bureau of Steam Engineering for purposes of experiment in radio control and a staff of expert technical officers has been placed on board to arrange the Iowa practice.

### Edison Uses Telegraph Key First Time in 19 Years

Orange, N. J.—Using a telegraphic key for the first time in 19 years, Thomas A. Edison sent from here to a committee of the Old-Time Telegraphers and Historical Association a message to be inscribed on an imperishable phonographic disc to be placed in the association's archives as a record of his style of "sending." The last time Mr. Edison used a telegraph instrument was in 1901.

## PERIL IN DREDGING WORK

Deepening of East River at New York Attended With Great Danger.

New York.—Death by drowning or dynamite—these are the principal dangers facing the men who are dredging the East river to Long Island sound in order to give New York another deep-sea passage to the Atlantic.

How this undertaking, which will require 15 to 20 years and an expenditure of \$55,000,000 to \$75,000,000, is being carried on was told here by officials of the dredging company which is doing the work.

The work must be done during the slack water period at the change of tides, and as there is generally from 500 to 1,000 pounds of dynamite aboard each drill boat, the danger of being rammed by passing craft and sent to the bottom is complicated with the possibility of being blown into the air, one official said.

"In Hell gate we are demolishing

Frying Pan reef, which is 480 feet by 300 feet. From eight to ten months will be required to complete this task.

"The longest slack water period registered in Hell gate during the last 40 years was 23 minutes. It is within that slack period that drilling points must be located, charges planted and fired and the position of the plant changed. Divers on this work are generally unable to spend more than 15 minutes under water at a time, so that they work but half an hour in a 24-hour day."

Wu Hopes to Live 125 Years.

Tokyo.—Wu Ting Fang, former Chinese minister to the United States, declines to discuss the Chinese revolution, but insists he will live longer than Count Okuma, because, while the former Japanese premier eats beef, pork, and fish, the Chinese statesman is a vegetarian. Wu Ting Fang claims he will live to be one hundred and twenty-five years old, while Count Okuma boasts he will outlive Mr. Wu.

## CALOMEL DANGER TOLD BY DODSON

Says You Cannot Grip, Sicken, or Salivate Yourself if You Take "Dodson's Liver Tone" Instead

Calomel loses you a day! You know what calomel is. It's mercury; quicksilver. Calomel is dangerous. It crashes into sour bone like dynamite, cramping and sickening you. Calomel attacks the bones and should never be put into your system.

Don't take calomel! It can not be trusted any more than a leopard or a wild cat. Take Dodson's Liver Tone, which strengthens you right up and makes you feel fine. Give it to the children because it is perfectly harmless and doesn't gripe.—Adv.

### "Bless Its Heart—It's Happy Now"

because its healthy stomach digests food properly, and bowels act as they should, after using

### MRS. WINSLOW'S SYRUP

The Infants' and Children's Regulator

It is a real pleasure to give this invaluable preparation—and babies and young children like to take it. Mrs. Winslow's Syrup never fails to overcome constipation and bring relief in cases of infantile colic, diarrhea, flatulence and the many similar troubles. Add a few drops depending on age, to each feeding. It is the best remedy that medical skill has ever devised and endorsed for teething babies, as may be quickly proven by reading the complete formula below which appears on every label.

### Millions of Tiny Germs

### Cause Your Catarrh

Real Relief Comes Only by Cleansing the Blood of the Germs.

S. S. will cleanse your blood of the cause of Catarrh, and give real relief. It has been in constant use for more than fifty years, and is sold by all druggists. Buy a bottle of S. S. today and lose no further time in getting on the right treatment. S. S. is an excellent system-cleaner; it is not sold or recommended for Venereal Diseases.

## OPEN-AIR MARKETS FOR CLUB PRODUCE STIMULATES DEMAND

Two Junior Star Saleswomen at the Lincoln (Neb.) Boys and Girls' Garden Club Market.

At Lincoln, Neb., there is a boys and girls' garden club that has created a new departure in the marketing of garden products. The members of the club—4,000 strong—produced more garden fruits and vegetables than they could use. How could they dispose of the surplus crop? An open-air market was suggested. The board of trade and chamber of commerce favored the plan, and a Saturday morning open-air market was created.

At first the business men of Lincoln complained that it would interfere with the regularly established produce trade; later they learned that, on the contrary, the boys and girls' Saturday market created a larger demand for produce during the week, and they are now enthusiastic over the arrangement. That open-air market has become a regular factor in the economic scheme of things at Lincoln, and, curiously enough, 85 per cent of the members of the club are girls.

It may be popularly believed that the marketing end of farm production should be conducted by the men. That may be true with regard to some commodities, but marketing experts of the department of agriculture maintain that sometimes women are better qualified to handle the marketing work in connection with poultry, eggs, and canned products. The production of poultry and eggs is largely a matter attended to by farm women. Canning is left entirely to the women.

**A Young Business Woman.**

There are many individual instances of notable achievements by boys and girls. One is that of a fifteen-year-old girl in Massachusetts who marketed about 3,000 cans of high-grade fruits and vegetables last year. The products were so well put up that the Colony club of Springfield, Mass., desired to contract for the entire output. At the present time this young woman has difficulty in meeting her orders, which call for 5,000 cans of produce this year. There is a potential business woman who is destined to be one of America's highest types of useful citizens.

### CARPET GRASS LIKES WELL-PREPARED BED

Seed May Be Sown Any Time Till After Midsummer.

Method of Seeding Often Used Is to Cut Grass With Mature Seed and Scatter Hay Over Land Where a Pasture Is Desired.

On cultivated land, carpet grass succeeds best on a well-firmed seed bed. The seed may be sown any time from early spring till after midsummer, when the moisture conditions are favorable. To secure a full stand of the grass promptly, seed should be sown at the rate of ten pounds per acre. A method of seeding that has often been used is to cut grass with mature seed and scatter the hay over the land where it was desired to establish carpet-grass pasture.

To establish carpet-grass pasture in open forests or on cut-over land, without going to the expense of clearing, the standing trees should be denuded by girdling. The land to be seeded should be burned over in winter in order to remove all the tall straw or broom sedge, wire grass, and other bunch grasses. Plowing or disk-ing is not necessary. Carpet grass at the rate of five pounds per acre may then be sown at any time after the weather becomes warm, but preferably when there is ample moisture.

Farmers' Bulletin 1130 on "Carpet Grass" may be had free upon request of the United States department of agriculture, Washington, D. C.

### COTTONSEED MEAL FOR FEED

Superior for Work Horses and Mules, but It Must Be Fed Sparingly—Safe Amount.

Cottonseed meal makes a fine feed for work horses and mules, but it must be fed sparingly. Experiments show that one pound per day for each 1,000 pounds of live weight of the horse is a safe amount to feed.

#### Learning Better Methods.

"It is conservatively estimated that 55 per cent of the membership of boys and girls' clubs work throughout the nation consists of girls. Within a few years the majority of those girls will take their places as American farm women. They are now, in their teens, studying and working out problems that will confront them later on. And while they are doing that they are learning the fundamental principles in scientific production and marketing methods that must supplement those being used at present in order to meet the increasing food requirements of our country."

#### Pure Water Is Essential.

All animals require plenty of good, pure water. This is especially true of the milking cow, as water constitutes more than three-fourths of the total volume of milk.

#### Sprucing Up About Farm.

A little paint goes a long way toward sprucing up about the farm.

#### Motors Help Profits.

Motor transportation is doing much to make farming more profitable.

### GENERAL FARM NOTES

Why not grow more alfalfa?

Rule for taking care of machinery: Keep it lubricated, adjusted and clean.

As a crop to sow in wheat or oat stubble, cowpeas should not be forgotten.

One man of experience says: "You can't raise hogs profitably without grass."

A larger supply of the food of the family can be grown on the home farm as a rule.

The wild cucumber is said to carry the mosaic disease, which injures the cultivated varieties.

Small areas may be freed of perennial weeds by covering with paper or by close cultivation.

## FALL FROCKS MAKE THEIR ENTRY

Now that it is a settled fact that

one piece dresses for fall share popularity with suits, for general and street wear, it is agreeable to find that the new models on display are very trim and neat looking. There is a vogue for intensely feminine styles, and this promotes the liking for frocks to take the place of suits on the street and elsewhere. Suits themselves are rarely built on severe lines, although there is never a time when a plain suit, beautifully tailored, need make any excuse for itself, it is always good. But the fall season promises a variety of styles and ornamentation in frocks that are of substantial materials and destined to do much service.

All these circumstances pave the way for such smart examples of the one-piece frock as that shown above. They are made, as suits are, of dependable wool fabrics in dark colors—serge, twill, broadcloth, devon and the like, and a little study of

these models will impress some new style points on the mind. In the frock which is shown above, a decoration on the skirt, of braid, simulating a neat looking embroidery, is a new departure. The longer waistline is an important item as is also the wide satin girdle with half-length sash fashioned with long fringe at the end. Embroidery, like that on the skirt, emphasizes the jacket effect in the bodice and defines the cuffs on the three-quarter length sleeves. There is a plain narrow vestee of devon, with little round buttons set in a row, which may be in a vivid or quiet color, or there may be two or three vestees furnished for one dress, so that one may change to soft occasions. This is a dashing little frock with a decided Spanish flavor, that may be carried out in the hat worn with it. There is a mere suggestion of it in the small headpiece with upturned brim that has been chosen and shown in the photograph.

SWAN SONG OF SUMMER HATS

SUMMER hats, so far as designers of them are concerned, will soon be a thing of the past, for designers are always looking forward and fashioning headwear for the days to come. But they force their thoughts away from summertime reluctantly; one is sure of that when the last of their efforts—the hats of late summer—make their appearance. They seem to be the most exquisite of all millinery, real poems of apparel—like the fabled last song of the swan—sweeter than all others.

A hat like that shown at the top of the group is entitled to more than a brief season, since it is a beautiful and comparatively static style. It has a round, well-proportioned crown of chrysanthemum braid, and a wide brim which may be of any light, smooth braid or of a sheer fabric. For trimming there is a band and bow of ribbon about the crown, old blue in color, that makes a delightful background, like the summer sky, for a flat wreath of small flowers posed against it. Sometimes a similar shape in leghorn or hemp or other braid in a light color dispenses with the ribbon band, has the flowers massed against the crown, and both crown and wreath veiled with malines. The de-

signer might have left off here and still have presented a pretty and creditable hat to the season; but a facing of fine black chantilly lace, falling away about the edge of the under-brim, gives this particular model an individual and distinctive touch, immensely becoming and full of class.

At the left of the group a representative of Paris holds its charming own, in a leghorn shape covered with rose petals made of organdie. It has a black velvet band about the crown, terminating in a bow. One can imagine it in white or in any pale tint and picture a thine of beauty to the mind.

In the hat at the right lace hair braid is applied to a straw shape in a different color. For trimming there is a band and rosette of narrow black velvet ribbon, the rosette resembling a blossom. It is centered with a jet cabochon and each of its loops is tipped with a jet bead. There are two hanging ends of velvet ribbon, at the end of each a little jet ornament. A mere description cannot do justice to this handsome decoration of velvet ribbon.

The Eton jacket.

The little Eton jacket made of pompadour ribbon is very attractive when worn over a sheer white frock; so is the wide sash with suspenders of narrow ribbon, matching in coloring and design. And, if one prefers to use ribbon very sparingly, a wide sash, made with a large bow but no streamers, and narrower ribbon of matching design, run down from the shoulders to the sash under the lace of the waist of a dress, make a frock distinctive. By this use of ribbon a

very simple white dress, made of one of the embroidered robes now sold in all the shops, can be given a slightly different appearance each time the dress is worn.

#### Hat of the Hour.

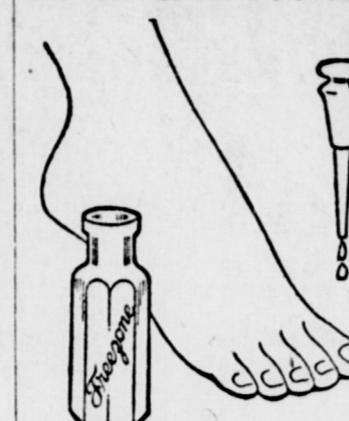

The hat of the hour is a broad-brimmed straw or taffeta surrounded with a white floral wreath, particularly lilies of the valley or lilacs. With such hats the white draped veil gives the final note in daintiness and coolness.

### SAID "DIAMOND DYES"

Don't streak or ruin your material in a poor dye. Insist on "Diamond Dyes" Easy directions in package.

### "FREEZONE"

Lift Off Corns! No Pain!

Doesn't hurt a bit! Drop a little "Freezone" on an aching corn. Instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Cuticura for Sore Hands.

Soak hands on retiring in the hot suds of Cuticura Soap, dry and rub in Cuticura Ointment. Remove surplus Ointment with tissue paper. This is only one of the things Cuticura will do.

Soap, Ointment and Talcum are used for all toll purposes.—Adv.

#### A Friend in Need.

Mrs. Flatbush—Who is that man with the red nose you just bowed to? Mr. Flatbush—Oh, he's a man I met out west.

"He is certainly not a prohibitionist, is he?"

"Why, I never had occasion to ask him, dear."

"But how did you happen to meet him?"

"Well, we were travelling out of Milwaukee on the same train one night. He had a bottle, and I discovered that I had a cork screw."—Yonkers Statesman.

Acid Stomach, Heartburn and Nausea quickly disappear with the use of Wright's Indian Vegetable Pills. Send for trial box to 272 Pearl St., New York—Adv.

#### Earthquakes.

The origin of earthquakes has been traced to two principal causes, the first of which is tectonic, and the second volcanic. The former refers to movements in the earth's crust, known as faults, possibly caused by the shrinking of the interior of the earth by reason of cooling.

#### Cuticura for Sore Hands.

Soak hands on retiring in the hot suds of Cuticura Soap, dry and rub in Cuticura Ointment. Remove surplus Ointment with tissue paper. This is only one of the things Cuticura will do.

Soap, Ointment and Talcum are used for all toll purposes.—Adv.

#### A Lady Candidate.

"Was the candidate ruffled?"

"No, she wore a severely tailored model."

## DEPENDED UPON IT 20 YEARS

Lydia E. Pinkham's Vegetable Compound Has Been This Woman's Safeguard All That Time.

Omaha, Neb.—"I have used Lydia E. Pinkham's Vegetable Compound for over twenty years for female troubles and it has helped me very much. I have also used Lydia E. Pinkham's Sensitive Wash with good results. I always have a bottle of Vegetable Compound in the house as it is a good remedy in time of need. You can publish my testimonial as every statement I have made is perfectly true."—Mrs. J. O. Elmoquist, 2424 S. 20th Street, Omaha, Nebraska.

Women who suffer from those distressing ills peculiar to their sex should be convinced by the many genuine and truthful testimonials we are constantly publishing in the newspapers of the ability of Lydia E. Pinkham's Vegetable Compound to restore their health. To know whether Lydia E. Pinkham's Vegetable Compound will help you, try it! For advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

## Children Cry For

*Fletcher's*

**CASTORIA**

### Special Care of Baby.

That Baby should have a bed of its own all are agreed. Yet it is more reasonable for an infant to sleep with grown-ups than to use a man's medicine in an attempt to regulate the delicate organism of that same infant. Either practice is to be shunned. Neither would be tolerated by specialists in children's diseases.

Your Physician will tell you that Baby's medicine must be prepared with even greater care than Baby's food.

A Baby's stomach when in good health is too often disarranged by improper food. Could you for a moment, then, think of giving to your ailing child anything but a medicine especially prepared for Infants and Children? Don't be deceived.

Make a mental note of this:—It is important, Mothers, that you should remember that to function well, the digestive organs of your Baby must receive special care. No Baby is so abnormal that the desired results may be had from the use of medicines primarily prepared for grown-ups.

MOTHERS SHOULD READ THE BOOKLET THAT IS AROUND EVERY BOTTLE OF FLETCHER'S CASTORIA

### COMMISSIONER'S SALE

The Commonwealth of Kentucky,  
W. A. Delaney's Exr. vs Lizzie

Delaney, et al.

Union Circuit Court Plaintiff.  
By virtue of a judgment and order of sale of the Union Circuit Court rendered at the November term thereof 1919, in the above cause, for the purpose of settlement of the estate of deceased, I shall proceed to offer for sale at the Court House door in the city of MARION, CRITTENDEN COUNTY, KENTUCKY, to the highest and best bidder at public auction on Monday the thirteenth day of September, 1920 at one o'clock P. M. or thereabout, being County Court Day, upon a credit of six, twelve and eighteen months, the W. A. Delaney land in Crittenden County, Ky., and lying near Sullivan, Ky.

The land is composed of five tracts and was conveyed to W. A. Delaney, deceased, by H. S. Newcomb in the fall of 1918, and contains as shown by recent survey 304 acres is thus described:

The land is bounded on the north by the lands of the Sneed heirs, Widow, Mack Walker and C. M. Mayes; on the east by the lands of J. M. Crider and William Tudor; on the south by the lands of Levi Steel and R. G. Walker, and on the west by the lands Gahegan, the Blue heirs and Carl Henderson. For a description by metes and bounds, which is quite lengthy, reference is made to the suit to settle the estate.

First—I will sell 130 acres on the west side of the farm.

Second—I will then sell 96 acres on the northeast side of the farm.

Third—I will then sell 78 acres on the southeast side of the farm.

Fourth—I will then sell the 96 acres and the 78 acres as one tract.

Fifth—I will then sell the whole farm of 304 acres and accept the most advantageous of the five bids.

For the purchase price, the purchaser must execute bond, with approved securities, bearing legal interest from the day of sale until paid, and having the force and effect of a judgement. Bidders will be prepared to comply promptly with these terms.

Witness my hand this 20th day of August, 1920.

E. R. MORTON,  
Master Commissioner Union  
Circuit Court.

### COMMISSIONER'S SALE

Mrs. M. N. Wood etc., plaintiff, against Mrs. E. J. Vanhoosier etc., defendant.

By virtue of a Judgement and Order of Sale of the Crittenden Circuit Court, rendered at the June term of 1920, in the above cause herein, I shall proceed to offer for sale at the Court-house door in Marion to the highest bidder at PUBLIC AUCTION, on Monday the 13 day of September, 1920 at 1 o'clock P. M. or thereabout, (being Court day), upon a credit of six months, the following property to-wit:

Four certain tracts of land near Blackburn Church in Crittenden county, and known as the R. W. Vanhoosier farm.

First tract contains 67 1/4 acres and known as the W. B. Crider survey.

Second tract contains 20 3/4 acres and known as the W. N. Travis survey.

Third tract contains 37 acres and known as the Birchfield survey.

Fourth tract contains 4 1/4 acres and is known as the Birchfield survey.

Will sell entire interest in first and second tracts as a whole and will sell an undivided one-half interest in third and fourth tracts.

The full description of the above four tracts of land may be seen at my office.

For the purchase price, the purchaser, with approved security or securities, must execute Bond, bearing legal interest from the day of sale until paid, and having the force and effect of a judgement. Bidders will be prepared to comply with these terms.

D. A. LOWRY, Commissioner.

### COMMISSIONER'S SALE

Josie Worley, Plaintiff against Virginie Worley etc., Defendant, equity.

By virtue of a Judgement and Order of Sale of the Crittenden Circuit Court, rendered at the June term of 1920, in the above cause herein, I shall proceed to offer for sale at the Court-house door in Marion to the highest bidder at PUBLIC AUCTION, on Monday the 13 day of September, 1920 at 1 o'clock P. M. or thereabout, (being Court day), upon a credit of six months, the following property to-wit:

A certain tract of land in Crittenden County, on the waters of Crooked Creek and containing 36 acres and being the same land which was conveyed to G. M. Worley by J. D. Worley and wife on the 29th day of November 1909, the full description of which may be seen at my office.

For the purchase price, the purchaser, with approved security or securities, must execute Bond, bearing legal interest from the day of sale until paid, and having the force and effect of a judgement. Bidders will be prepared to comply with these terms.

D. A. LOWRY, Commissioner.

PNEUMATIC tires made the automobile possible.

Lee Puncture-Proof pneumatics cured the vital defect of all tires by preventing punctures and blow-outs.

You can buy a Lee Puncture-Proof (Fabric) with the impenetrable but pliable Puncture-Proof tread in all sizes from 30" x 3" up to 34" x 4".

The Lee Cord Puncture-Proof—the tire achievement of the century—has every characteristic of the finest Cord tire perfected and protected by the patent Lee Puncture-Proof feature.

They come as small as 32" x 4 1/2" and as big as 37" x 5" with six sizes in between.

Lee Puncture-Proofs defy the risks of every road.

They save your tubes and eliminate repairs and the annoyance of road delays.

## Lee Cord or Fabric Puncture-Proof Tires

"Smile at Miles".

As sure as you  
are a foot high—

you will like this Camel Turkish  
and Domestic  
blend!

# Camel

CIGARETTES

YOU never got such cigarette-contentment as Camels hand you. Camels quality and expert blend of choice Turkish and choice Domestic Tobaccos make this goodness possible—and make you prefer this Camel blend to either kind of tobacco smoked straight!

Camels mellow-mildness is a revelation! Smoke them with freedom without tiring your taste! They leave no unpleasant cigarette aftertaste nor unpleasant cigarette odor!

Give Camels every test—then compare them puff-for-puff with any cigarette in the world!

Camels are sold everywhere in assortments and packages of 20 cigarettes; or ten packages (200 cigarettes) in a glass-topped cigarette case. We strongly recommend it in carton for the home or office supply or when you travel.
